Complete research narrative

LE Vending corresponds to Hangzhou Yile Shangyun Robot Technology Co., Ltd. (), established in 2007 in Linping District (formerly Yuhang), Hangzhou. The company operates a substantial manufacturing facility (52,000 m² building area on a 30-acre site) producing commercial smart vending machines, bean-to-cup coffee machines, robotic barista kiosks, and related IoT telemetry systems. The card contact, Andy Sun, uses a dedicated corporate domain email (sales5@ylvending.com), corroborating company affiliation under domain parity standards; notably, official domestic company listings also cite a Regional Sales Manager Sun (' '), though the card's mobile number (+86 191-0677-7355) differs from public numbers. For UAE importers targeting high-traffic retail, hospitality, or office settings, LE Vending represents a genuine Chinese equipment manufacturer with verified factory scale, CE/CB certifications, and multi-currency/cashless telemetry options, fitting a \$20k-\$100k trial order profile. However, contracting and payment authority must still be routed through official channels (e.g., inquiry@ylvending.com / corporate bank accounts) to mitigate spoofing risks.
