Complete research narrative

Shenzhen VStarcam Technology Co., Ltd. is an established Chinese visual IoT and video surveillance equipment manufacturer founded in April 2011 in Shenzhen. Public corporate registry records show its official registered Chinese legal name was updated in September 2024 from to Shenzhen Xiaoying Vision Intelligent Co., Ltd. (, USCC: 9144030057311446X6, Legal Representative: Yan Guochao / Luke Yan), while continuing international commercial and branding activities under the VStarcam trademark. The enterprise operates a self-managed production park in Shiyan Town, Bao'an District, Shenzhen, with ISO 9001:2015 certification, FCC IDs, and CE certifications. For a UAE/Dubai buyer, VStarcam offers competitive off-the-shelf consumer and commercial IP cameras, dual-lens PTZ, solar/4G cameras, and smart doorbells. However, local regulatory compliance (TDRA equipment type approval in the UAE) and brand exclusivity in Dubai require formal contract verification before placing trial orders.
